EV Market Dashboard Design Report

EV Market Performance and Insights

Date	26 October 2026	**Team ID**	Individual
Project Name	EV Market Performance and Insights	**Maximum Marks**	5 Marks

Activity 1: Dashboard Design Principles & Outcomes

Key design principles applied: Clear layout, appropriate visuals, cohesive theming, interactive filters, drill-down capabilities, responsive design, custom visuals.

Dashboard Element	Key Finding / Value
KPI Overview	Total EV Sales: 1.55B units | Avg Price: $64,921 | Avg Range: 324.54 km | CO2 Saved: 738K tons/year
Production Leaders	India, China, and Vietnam lead annual production output across categories.
Retained Value	Electric Bus holds highest 3-year retained value ($14.5M), followed by Electric Truck & Sports Car ($8.69M).
Driving Range	Luxury Sedans & SUVs offer longest range (550-600 km); Micro City Cars offer shortest.
Battery & Charging	NMC and LFP lead sales; high charging power (350 kW) correlates with higher Wh/km consumption.

Activity 2: Published Tableau Public Link
